

ActivExpression

Communicate.

There are always more questions than those that can be answered with a simple yes or no. And students generally have much more to say than just A, B, or C. Sometimes, the answer is $E=MC^2$, Robert Frost, 12,426, or LOL. With ActivExpression, no message is too complex to communicate.

ActivExpression features full text capability, enabling numeric, sentence-based, symbolic, and, of course, yes, no, A, B, and C-based responses. It's an easy-to-use tool for polling and pre-planned participatory exercises alike. It works on the fly, ready to query the class at any time. And it offers teachers the opportunity to instantly gauge student comprehension and adjust lesson plans based on needs. Self-Paced Learning functionality encourages students to work at their own pace and level. But ActivExpression's most innovative feature is its ability to help all students find confidence—and their voices. Here in the ActivClassroom, participation is no longer a panic-inducing proposition. Everyone answers (anonymously if necessary), and everyone is heard.

The ActivClassroom by PROMETHEAN

ActivExpression

DETAILS

Wireless connectivity—talks seamlessly with the ActivClassroom via ActivAir technology

User-friendly, cell phone-like design makes ActivExpression familiar and easy to use
