

ActivSound

Hear.

In the **ActivClassroom**, there are no quiet corners. Learning is often loud. But because listening is so important for students, and the ability to speak unstrained above the noise so vital to teachers, we created ActivSound—classroom audio enhancement that makes every seat in the house a good one, no matter how lively the lesson gets.

ActivSound features an easy to use, wireless pendant microphone that picks up a teacher's voice, and a handheld student microphone (or two, or four) so the crowd can contribute just as clearly. All interface with a mixer-amplifier and broadcast loud and clear through multiple stereo speakers, depending on your needs. The system is versatile enough to fit any space, even the smallest, most temporary or mobile. Regardless, the result is amplification of the learning experience, for everyone.

The **ActivClassroom** by PROMETHEAN

ActivSound

DETAILS

Low-interference infrared means an always clear broadcast; no static, no drop-out

Hands-free pendant microphone is small, light and designed to deliver up to eight hours of performance between charges

Battery management microprocessor helps ensure that our wireless microphones function seamlessly, day after day, year after year

Additional connectivity for up to four media devices: DVD, VCR, Computer, MP3 player

Auxiliary input on each microphone offers even more versatility

FEATURES

Teacher microphone sports remote volume controls for two microphones and multimedia, eliminating trips to the amplifier to adjust volume

Student handheld microphone makes sure students' voices are heard and teaches them important presentation and life skills

Ceiling and wall speakers designed for vocal-range clarity as well as crystal clear highs and impressive lows for multimedia presentation

Makes digital recording easy with standard outputs and integration with systems for the hearing impaired
